World

(words & music by Michael Thurm, additional words by Jana Enke)

here I am
who did decide for me
copy me, clear your identity
to be or not to be
we are
get lost, feel free
dreams get real if you own enough
of that stuff
turn my wheel
turn your wheel
leave if it's to much
for your small brain
brainstorm here
brainwind there
wind brings clouds
and clouds bring rain
dreaming of how all could be
the world is great the world's a destiny

Compromise

(words & music by Michael Thurm, additional words by Jana Enke)

yes, that's how it is
that's how it looks like
now you're the mouse
caught in this trape, tight
bite off a part of your body
sell a part of your soul
before you become a meal
leave behind a part of your life
make a compromise and you'll survive
yes, you get some scares
yes, it hurts sometimes
but you will survive with a little compromise

eat or be eaten
that's the rule
it's no use to complain
just get conform
the only chance you have
is to cut off that holds you in
do you see this gun pointing at your head
it could be a matter of time
better you lose a bit and win

yes, that's how it is
that's how it looks like
now you're the mouse
caught in this trape, tight
bite off a part of your body
sell a part of your soul
before you become a meal
leave behind a part of your life
make a compromise and you'll survive
yes, you get some scares
yes, it hurts sometimes
but you will survive with a little compromise

Absolutely Yeah

(words & music by Michael Thurm, additional words by Jana Enke& Claudia Busch)

yeah, we hate us
no faith, just distrust
humanity abolished
storm in the waterglass
as long as water's in the glass
the beginning of the end finished
no fish in the desert
no flower without light
infinity in mind
but the end in sight
new centuries open
in global networks
rooms get bigger
but we can't stop to hurt

an absolutely yeah
I say when I see us here today
we go and live our lifes
yes, is it right to say all alright?

is that light
a reflection of us
or the end of the tunnel
try to understand
the things we do
but try without thinking
television-tribunal
live in primetime
death 's concluded
so now shout with joy
it's just a matter of habit
let's make heaven to hell
look, a devil with the face
of an angel

an absolutely yeah
I say when I see us here today
we go and live our lifes
yes, is it right to say all alright?

Utopia Blue

(words & music by Michael Thurm, additional words by Jana Enke& Claudia Busch)

prairie, green after flooded by rain
rivers spring out of the green
herds back on old paths
life spreads out over dust
woods revive

roads thru countries and cities
humen closed to harmony
there a shadow in their minds
could turn this utopia blue

sky
filled with clouds and the sun
shines at earth and ocean
animals in their elements
valleys, hills, mountains

roads thru countries and cities
humen closed to harmony
there a shadow in their minds
could turn this utopia blue

Insignificant

(words & music by Michael Thurm, additional words by Jana Enke)

you're the thing that I need
the water I drink
the air that I breathe
I could not exist
if you would not be

the fire, the dust
the warmth, the trust in your strength
make me feel so save
make me shure to be right
to be right, here

you're holding me
bringing me back
if I try to lift off
if I try to escape
every flight to the sky
can't tear me from you

but I've got to fly
above you to see
your whole beauty
your whole beauty

full of respect
full of regard
I feel
so small
insignificant
compared to you

nothing counts
nothing is more
I'm just a moment in a second of your life
insignificant
and small

you're holding me
bringing me back
if I try to lift off
if I try to escape
every flight to the sky
can't tear me from you

I Believe

(words & music by Michael Thurm, additional words by Jana Enke & Claudia Busch)

no colours, no light, all's dark grey, much crime
I believe it is night

look it moves, it's like a warm thing that breaths
I believe it's alive

it is sweet, it smiles, it screams, it cries
I believe it is a child

it's so hart, I hang on it like, a draft of water
I believe it's too tight

I believe in love
I believe in peace
I believe in truth
I believe in ease
I believe in youth
I believe in you
I believe in talking platitudes

I believe in dust
I believe in good treatments
I believe in trust
someone will cheat them
but when they're strong enough I believe
that even they will win again

it is soft with big eyes, makes a grumbling sound
I believe it's a teddybear

it is cold, mostly grey, but got colours inside
I believe it's something we got here

don't ask why, it's not a genius, but I believe
it's nothing you must fear

is that the alarm bell? is that a fire there?
I believe we all should get out of here

I believe in love
I believe in peace
I believe in truth
I believe in ease
I believe in youth
I believe in you
I believe in talking platitudes

I believe in dust
I believe in good treatments
I believe in trust
someone will cheat them
but when they're strong enough I believe
that even they will win again

Rain

(words & music by Michael Thurm, additional words by Jana Enke & Claudia Busch)

so many things gnaw in my mind
a lot of failures throw me back
left on my own in these times
thoughts start circling in my head

the sun was high
the wind was warm
the sails were set
the way was clear
the horizon so near
the sky was blue
the ocean too
the waves brought us
the compass showed
where we were going to

but now the rain is back

what is wrong what is right
sometimes it's so hard to decide
now, which way to go on
which way to go on ...

the sun was high ...

I want the rain to stop now
I want the sun to shine again
I want to see a new land
I want all to be like before the rain
I want that

the sun is high
the wind is warm
the sails are set
the way is clear
the horizon so near
the sky is blue
the ocean too
the waves bring us
the compass shows
where we are going to

I hope the rain never comes back

Out Of Light

(words & music by Michael Thurm, additional words by Jana Enke & Claudia Busch)

I lie here
did I lie to you
is not keeping you abreast
like not saying the truth

see thru the window into the blue
there are so many secrets
you still don't know

anytime, when there comes the time
lie becomes truth
truth becomes lie
someone's saying goodbye
someone's stepping out of light

what is all worth under the ground
what is all worth if you haven't found
what you need to be
happy

see thru the window into the dark
a door opens into the night
someone seems to say goodbye

anytime,when there comes the time
lie becomes truth
truth becomes lie
someone's saying goodbye
someone's stepping out of light

Over

(words & music by Michael Thurm, additional words by Jana Enke & Claudia Busch)

we used to spend much time together
yes, we had a lot of good times
but situations changed and anyway I feel
now the fire is now only a light

little angel
I don't want us hating
little angel
I don't want these tears in your eyes
little angel
I don't want frustration
but I think it's better before it's night

I can't tell you all my reasons
I can't find the words to express
explaining thoughts is never easy
but the fire became less and less

little angel
I don't want us hating
little angel
I don't want these tears in your eyes
little angel
I don't want frustration
but I think it's better before it's night

feelings, thoughts, emotions
sometimes I think it's right
sometimes I think it's over
cause the fire is only a light

little angel
I don't want us hating
little angel
I don't want these tears in your eyes
little angel
I don't want frustration
but I think it's better before it's night

Heaven Help

(words & music by Gerry DeVeaux and Terry Britten)

there comes a time
to be free of the heart
I wanna be ready
ready to start
on a love journey
got places to go
made up my mind
and i have got to let you know

heaven help the heart
that let's me inside
heaven help the one
who comes in my life
heaven help the fool
that walks through my door
'cause I decided right now
I'm ready to love

a funny feeling's coming over me
now I'm inspired and open to being
in a love place
but it's out of my hands
I'm telling you baby that you got to understand

heaven help...

I can't see what's
out there for me
and i know love offers no guarantee
I'll take a chance and I'm
telling you something babe
I got to let you know

heaven help...

ready for love
take a chance
take a chance on love
